

GET YOUR MIND INTO THE GUTTER™

JOIN THE SHERIDAN COMMUNITY CLEAN WATER CHALLENGE!

IT ONLY TAKES 10 BINS TO CAPTURE A TON OF TRASH

WYOMING ROOFING, TOGETHER WITH FROG CREEK PARTNERS, ISSUES A CHALLENGE TO THE SHERIDAN COMMUNITY TO PROTECT GOOSE CREEK BY SPONSORING A GUTTER BIN. IT ONLY TAKES 10 BINS TO CAPTURE A TON OF TRASH! HELP US GET 10!

STORMWATER POLLUTION is the greatest threat to water quality today in the United States. Pollution from humans is destroying our water and the wildlife that live in oceans and rivers. The vast majority of stormwater is not filtered and runs directly into our rivers, lakes, and eventually into the ocean. All the filth you see, and some that you don't, on the streets and in the gutter washes directly to the nearest waterway through municipal storm water networks.

YOU CAN HELP PROTECT OUR WATER

To prevent polluted waterways, Frog Creek Partners introduces 21st century technology to the gutter in the form of the Gutter Bin® storm water filtration system. The Gutter Bin operates like a coffee filter for storm drains - trapping pollution at the storm drain before it has a chance to flow into the river or water body. Benefits include:

Cleaner water - protects our drinking water & the animals who live there

Measurable results - quantify your pollution capture rate

Easy maintenance - it's fast and simple

Minimizes risk - storm sewer pipes clogged with trash cause flooding

The Gutter Bin helps prevent blockages, thereby protecting assets

HOW YOU CAN JOIN THE CHALLENGE!

STORMWATER IS THE #1 SOURCE OF WATER POLLUTION TODAY

WHAT CAN THE GUTTER BIN REMOVE?

- **Trash & microplastics**

Ocean plastic may outweigh fish by 2050

- **Cigarette butts**

One cigarette butt in a liter of water will kill 5 out of 10 minnows

Over 4 trillion butts are littered each year

- **Sediment**

- **Heavy metals**

- **Hydrocarbons - chemistry by MYCELX**

- **Vegetation/nutrients**

Typical Downtown Catch Basin, Draining Directly Into a Stream

“As a local Sheridan financial institution, we see the value of being involved with the community. Our Gutter Bin sponsorship provides an excellent way to help our community and protect one of our most valuable resources...the water. It’s an added bonus that Frog Creek Partners has figured out a way to recognize their sponsors with branding opportunities on the Gutter Bin.”

~ Kevin S. Bailey, First Federal Bank & Trust, President/CEO
Because Clean Water is a Good Thing™

PUT YOUR NAME IN THE GUTTER

Seriously, we’re not kidding. Gutter Bins have service lives of 25 years and have multiple branding opportunities including customized grate hatches and stainless steel badges.

Join the community challenge and help us get 10!

Brian Deurloo/President & Founder is a native of rural Wyoming and graduate of Sheridan High School in 1991.

In 1997, he obtained a mining engineering degree from the Colorado School of Mines. Brian has lived and/or worked on four continents but always returns home to Wyoming.

Keeping it Local! Gutter Bin is manufactured in Sheridan, Casper and Gillette, WY
