

Channel Filter System (CFS)

Gutter Bin® stormwater filtration system

CERTIFIED:

- ✓ Full Trash Capture (CA)
- ✓ Vector Control Accessible (CA)
- ✓ Temporary Erosion Control (WA)

The Gutter Bin CFS removes stormwater pollution within a trench drain and channel-type drainage thereby helping protect local waters and achieve environmental protection goals. It accepts the full line of Mundus Bag® water filters.

Features & Benefits

- Patented design removes a broad spectrum of pollutants from stormwater in sloped drainages
- Scalable frame & filter system fits most any width, depth and shape channel or trench drain
- Round-bottom and flat-bottom models available
- High quality USA construction with 3-year warranty
- An adjustable backflow preventer inhibits scouring and the loss of captured floatable pollutants
- The system produces measurable & quantifiable results that align with EPA NPDES BMP guidance
- Reduces downstream pipe cleaning maintenance costs
- Excellent upstream addition to pre-filter treatment trains

Install & Service

- Clean in 2 min or less by hand or machine (confined space entry not required)
- Service 1-4 times/yr depending upon environment and filter option choice
- Installs in 15 minutes or less
- Compatible with retrofit and new build
- No special tools required

Engineered to remove heavy metals, hydrocarbons, and trash at industrial sites, shops and parking lots
