

Protecting Our Water

Clean Water Community Challenge

What Are We Doing?

We are installing Gutter Bin[®] stormwater filtration systems in many storm drains around the community to protect and restore Colorado Springs' creeks. The Gutter Bin operates like a coffee filter for storm drains; it traps pollution before it flows into the nearest stream, river or lake. The captured pollution is removed at least once per year and is diverted to the landfill, therefore protecting our water and the environment. The average Gutter Bin will capture about 200 pounds of pollution each year.

Original Gutter Bin

Why Are We Doing It?

Stormwater pollution is the single greatest source of water pollution today. Every time it rains, stormwater washes the filth on our streets directly to local waterways. The vast majority of stormwater isn't treated or filtered. It simply drains to the closest body of water along with all of the trash, sediment, heavy metals and oils that it picks up along the way. Gutter Bins stops this terrible thing from happening.

storm drain prior to Gutter Bin installation - Denver

Stormwater Pollution Facts:

- 28% of US stream miles are unfit for human recreation
- 1 cigarette butt in a liter of water will kill 5 out of 10 minnows in four days
- Over 4 trillion butts are littered each year
- Ocean plastic may outweigh fish by 2050

Who Supports This Project?

Municipalities, companies, corporate sponsors, nonprofits, environmentally-minded individuals and people who care about clean water support the Clean Water Community Challenge. These particular Gutter Bins were generously sponsored and purchased by:

Colorado Springs Clean Water Community Challenge

These Gutter Bins are part of the Colorado Springs Community Clean Water Challenge. The Challenge is open to all companies, organizations and individuals who care about clean water and want to help their community. Learn more at: <https://coloradosprings.gov/cleanwaterchallenge>.

To personally get involved, please contact us or feel free to attend our Challenge kick off party:

Date: September, 28th, 2021

Time: 5:30 pm - 7:00

Location: The Pioneer Museum in Colorado Springs
215 S Tejon St, Colorado Springs, CO 80903

Sponsor Your Own Gutter Bin

Call or email us today to purchase and donate your own Gutter Bins to your community. Frog Creek Partners makes it easy for community leaders, businesses and organizations to take part in keeping our water clean. Do you know of a polluted storm drain near your home or business? Contact us and we'll take it from there.

Routine maintenance will be done by the the city. Your sponsored Gutter Bin(s) will work hard each and every day for years to keep our water clean and healthy.

Put Your Name In The Gutter

Seriously, we're not kidding. Gutter Bins have service lives of 25 years and have multiple branding opportunities including customized grate hatches and stainless steel badges.
